Alexander von Humboldt
Stiftung/Foundation

**ON THE OCCASION OF CELEBRATING 20 YEARS FROM THE
FOUNDATION OF THE HUMBOLDT CLUB OF ROMANIA**

and

**90 YEARS FROM THE ESTABLISHMENT OF THE
POLITEHNICA UNIVERSITY OF TIMISOARA**

we organize a Humboldtian session
having as theme

**KNOWLEDGE, CULTURE, SCIENCE
THE FUNDAMENT OF QUALITY OF LIFE IN SOCIETY**

Location of the event: The Politehnica University and the University of the West in Timisoara

Date of the event: 23-28 of November 2010

Dear Humboldtians, dear friends from everywhere,

There are two anniversary events that give us the occasion to bring some aspects together, within this reunion having a very widespread theme. We are in a position to put into relation the status and the contribution of research and education in our modern society with the quality of life and thus to present their reflection into our activity. The national and the international meeting is a welcome opportunity to exchange professional experiences within sections but also at round tables, which are organized paying attention to our various fields of competence

Our application at the Alexander von Humboldt Foundation regarding the financial support for such a meeting has been successful. Thus, from the received money, we can come up with travel expenses for the lecturers (flat-rate, partially or totally, as the case may be) as well as with accommodation expenses during the session and with the included cultural program. Many of you have sustained the application and have shown interest in our meeting by announcing lectures. Once more, we wish to thank you all for that. Within the new, safer, terms, please renew your intention of participation by registration confirmation. Those who haven't done it yet, can do it now.

For this purpose, we have created a web page especially for this session (<http://avhkolleg2010tim.mec.upt.ro/index.html>) and we kindly ask you to register there (Conference Registration). You will find there also details regarding the concept, the actual or potential new variants of the programme of the conference and generally speaking, news.

We are glad and honoured to welcome you.

Important to remember: The registration deadline is **30 of November**. For the lectures' deliverance we offer all media facilities. We also intend to publish a volume of the conference.

Please bring with you juniors from your research fields and ask them to register as well, and to contribute with a lecture. The Humboldt Foundation appreciates if you enlarge the Humboldtian family with young researchers. It's not compulsory that the participants at this conference should be Humboldt scholarship holders. The only important thing is they have to tell and show something competent in their research field.

It is not unimportant, that our meeting is to be held in Timisoara, the city of flowers. It is as well the city, where the revolution started and the symbol of the peaceful coexistence of various nationalities. This way you'll have the occasion to see how culture and science grown together can be successful. The organizers will take care that you'll have a thrilling cultural programme next to the conference.

Prof. Dr. ING. HABIL IOANA IONEL (UNIV. *POLITEHNICA* TIMISOARA)

PROF. DR. SPERANTA STANESCU (UNIV. *BUCURESTI*)
